

All available therapy options in Germany have failed. Antibody therapy and a stem cell transplant could not stop her leukaemia. Please join us in our fight to eradicate one of the world's deadliest childhood cancers!

This is Ilayda's last chance, so give generously!

Every day counts in our race against time!

We are completely dependent on donations, so please  give!

SAVE

Ilayda

If 100 companies gave just \$1000 - the cost of a small event marketing campaign, and 7,000 people gave just \$100 - the cost of a fancy dinner out for a family of four just like Ilayda's, our fundraiser would be over in a day.

The treatment Ilayda needs is only available in Philadelphia in the United States - a whole ocean away from her home. We are working to get her there by raising \$800,000 US.

To donate via paypal or for further information visit: www.help-ilayda.com
